

CRETANS ARE NOVELTY AT PEACE MEET

PARIS, March 25.—Kings, presidents, and premiers have ceased to be a novelty at the Peace Conference, but the bodyguard of Premier Venizelos of Greece, never fails to attract great crowds. At the hotel where the American delegation is housed and at the Foreign Office, Venizelos' approach is always heralded by the arrival of one of his Cretan soldiers arrayed more brilliantly than a comic opera bandit.

The Cretans who escort the Greek statesman are all more than six feet tall and apparently have been chosen from various organizations as a different uniform appears daily, and the same uniform is never seen twice. The swartzy Cretans all have small waxed mustaches twisted into upturned points and stand rigidly at attention for hours while awaiting M. Venizelos at the entrance to the hotel or the Foreign Office. The jibes of small boys and the jokes of various allied soldiers who gather in wonderment never seem to disturb the imperishable Cretans.

Perhaps the most startling uniform worn by one of the guards consisted of white tight, bound up, tasseled black silk cords at the knees, a red velvet blouse and a red fez adorned with a black silk tassel so long that it fell below the waist and black sandals with upturned toes topped by great black silk pom poms. This costume was completed by an ivory-handled knife two feet long thrust carefully into the scabbard.

The knives and swords worn by the Cretans are the chief feature of the uniforms and make collectors of antique weapons very envious. They are of all sizes and shapes and have sheaths of great splendor, jeweled and carved in a marvelous manner.

Some of the guards are bare-kneed and have costumes not unlike the Scotch in style, but much more colorful. Others wear marvellously decorated tunics reaching far above the knees. Caps of oriental hues are frequently worn by the Cretans and add to the brilliancy of the Greek uniforms which make the famed dress uniforms of the French and English look commonplace.

German Photo Shop Popular With Yanks

COBLINZ, March 25.—German photographers in Coblenz recently have been doing the largest business in their careers, their principal customers being American soldiers. From two to five thousand Americans of units in districts beyond the Rhine, and other parts of the occupied area visit Coblenz daily, the soldiers being allowed one day in the city every five weeks. Hundreds of these men have their photographs taken.

In their display windows the photographers have arranged in pictures of Americans on the spot and likenesses of German civilians and soldiers. On the other, always with a dividing line of some kind in between.

Early Trial Given to Woodman Hearing Set Before Primaries

LOS ANGELES, Cal., March 25.—Setting of April 17 as the date of the trial of Mayor Frederic T. Woodman on a charge of asking, agreeing to receive and receiving a bribe, and the issuance of additional grand jury subpoenas are the outstanding features of the inquiry into alleged municipal "graft."

The case was called in Superior Judge Gavin W. Craig's court but because of the crowded condition of the calendar, it was transferred to the department of Judge Frank R. Willis.

Captain John D. Fredericks, chief counsel for Mr. Woodman, asked as early a trial as possible, asserting it was the right of the mayor to have the charges proved or disproved before May 6, the date of the municipal primary election at which Woodman will be a candidate for reelection.

Judge Willis said: "I shall grant an early trial not merely because the defendant is a candidate for reelection but because he is mayor now. The people of this community have a right to know whether this city has as mayor a man guilty of such accusations as are contained in this indictment."

Thomas Lee Woolwine, district attorney, said he also favored an early trial.

The new subpoenas call for appearance of the witnesses Wednesday morning. The district attorney said the grand jury inquiry might continue till the opening of the trial or later. He intimated that other indictments might be expected.

Charges by the mayor and counsel that his indictment was the result of a "political frame-up" were replied to by Mr. Woolwine in the following signed statement:

"A systematic effort is being made in the case against Frederic T. Woodman to poison the public mind and to prejudice the prosecution of negro day keepers.

"Under the circumstances I consider it a duty that I owe to the people of this community to state that all the evidence upon which the indictment was founded was submitted to a grand jury composed of nineteen citizens of this county and that it was upon their vote and action that the indictment was returned. Surely the people are not going to be hoodwinked into the belief that this grand jury is composed of a coterie of scoundrels who would lend themselves to so diabolical a plot as to charge a man with a crime to satisfy the political animosity of any man or set of men.

"While I cannot enter into any detailed discussion of the evidence, suffice it to say that the indictment did not rest upon the testimony of negro members and day keepers alone but was substantiated by documentary evidence and the testimony of other witnesses.

"The mayor himself was given not only one but two opportunities as a

'PROF.' SLIPS ONE OVER ON CAMPUS

BERKELEY, March 25.—George Ade, humorist and writer, may be famous in other parts of the world for his clever satire, but he is scarcely known on the University of California campus.

As a test of how much co-eds on the campus knew of Ade's writing, Professor Samuel J. Hume advertised for a "Nettle" to play the title role in the play of that name, which is to be given tomorrow evening by the English club.

Then his troubles began. "Nettles" of all sizes and shapes, fair-haired and dark, flocked into his office seeking opportunity to display their charms and their histrionic ability.

It was only then that Hume explained the "joke." For the "Nettle" in the play never appears, she's merely talked about by a quartet of male victims or her charms.

And now Professor Hume is considering introducing a course in presenting writers in his English classes. Leading the list will be the name of Ade. All co-ed aspirants for the role of "Nettle" will be sent special invitations to attend.

HINDENBURG IN FEAR OF 'REDS'

BERLIN, March 23, via London. March 24.—Field Marshal von Hindenburg believes that, if the allies crush Germany, Bolshevism will hold sway until it is defeated by the yellow races. This was one of the revelations made today by Frau von Hindenburg, sister-in-law of the general.

Discussing the causes of the war, Frau von Hindenburg described the ex-kaiser as tactless.

"Just after his accession to the throne the late King Edward met the former emperor, his nephew," continued Frau von Hindenburg. "William patted Edward upon the shoulder and said: 'Now, I am emperor, while you are only a king, and I can give you advice. You must change your way.'"

Frau von Hindenburg thinks that Germany will again be prosperous, but says she is too old to live to see it.

ROAMS MOUNTAINS IN HIS BARE FEET

PITTSBURGH, Pa., March 25.—Hubert Legey, ninety, a hermit in the Clearfield Mountains in Western Pennsylvania, is believed by his friends to have found the fountain of youth.

In the seasons not marked by snow or frost the young aged man roams the mountain trails in his bare feet. He has never shaved and his beard extends almost to his knees. He knows the secret of vigorous life. Nature has few mysteries which he does not possess. He heals by the laying on of hands and extracts medicinal secrets from the bark of hemlock, pine and oak and from the wild flowers, plants and weeds.

Legey plants only enough grain and vegetables for himself. He will not hoard. He gets his meat from wild game and he is said to be a crack shot with a muzzle-loading rifle. He says he can hit the eye of a humming bird at 100 yards. From the birds of deer and bear he makes what clothing he needs. Old residents say he has never had a day of sickness.

The hermit says his secret of youth lies in clean thoughts and scrupulous adherence to the laws of nature. "Modified civilization has brought disease to human kind," he declares. "I expect to live to be one hundred and twenty by obeying Mother Nature."

Constipated Children Gladly Take "California Syrup of Figs"

Tell your druggist you want genuine "California Syrup of Figs." Full directions and dose for babies and children of all ages who are constipated, bilious, feverish, tongue-coated, or full of cold, are plainly printed on the bottle. Look for the name "California" and accept no other "Fig Syrup."

League of Women Voters Is Proposed

ST. LOUIS, Mo., March 25.—With a definite map of its future presented in an address by Mrs. Carrie Chapman Catt, the first business session of the National Woman's Suffrage Association began here this morning.

The "League of Women Voters," proposed by the national president last night, will be presented at today's business session. The non-partisan, non-sectarian political force of women was expected to be formulated along the following lines:

To use its influence to secure final enfranchisement of the women of every state and in foreign lands.

To remove the remaining legal discriminations against women in the codes and constitutions of every state.

To make democracy safe for the nation and safe for the world.

HELD UP AND ROBBED.

X. A. Gucken, 2109 Hobart street, reported to the police last night that he had been held up at Hobart street near Grove shortly before midnight. A bandit with a gun robbed him of a small amount of money.

MASSACHUSETTS NURSE Tells Women How to Get Strong.

Greenfield, Mass.—"I am a nurse and the grippe left me in a weak, rundown condition with a cough—my friends asked me to try Vinol. I did so and it has built up my strength so that I am in perfect health at the present time and I am recommending Vinol to others."

Mrs. F. M. Locke.

There is no secret about Vinol. It owes its success in such cases to heart and end liver peptones, iron and manganese peptones and glycerophosphates, the oldest and most famous body building and strength creating tonics. We strongly recommend Vinol.

The Owl Drug Co. and druggists everywhere.

P. S.—If you have Eczema try our Saxon Salve. We guarantee it.—Advertisement.

OLD AGE STARTS WITH YOUR KIDNEYS

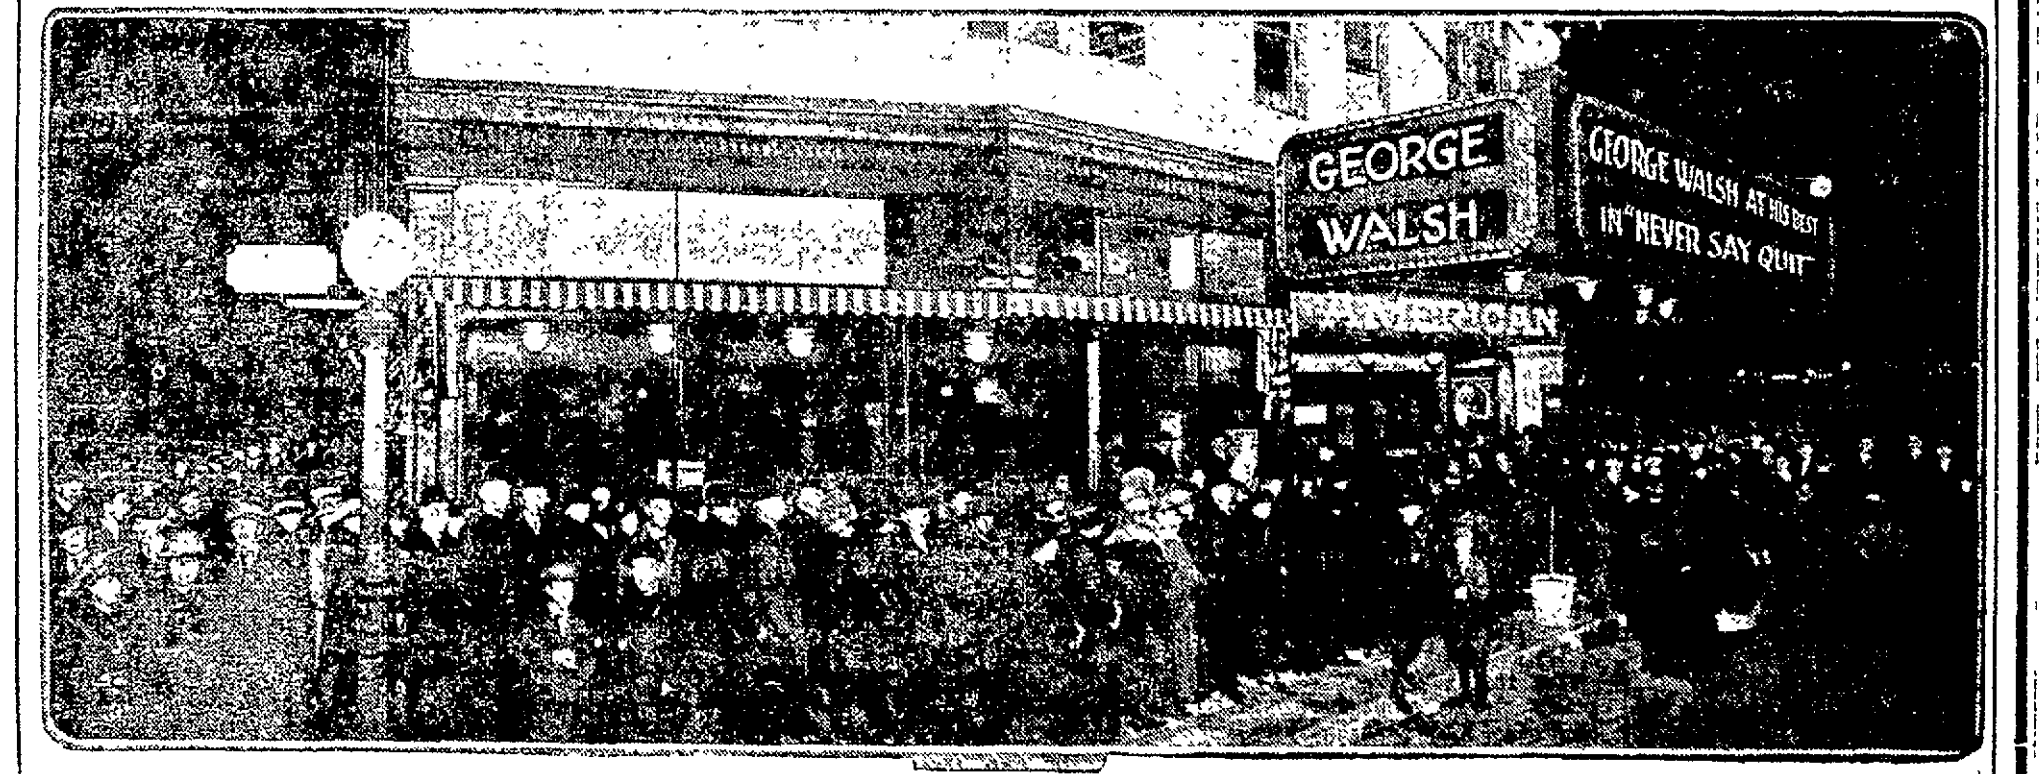

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haslam Oil has been relieving the weaknesses and disability due to advanced age. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haslam Oil is enclosed in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a swallow of water. The oil stimulates the kidney ages.

Do not wait until old age or disease have settled down for good. At the first sign that your kidneys are not working properly, go to your druggist and get a box of GOLD MEDAL Haslam Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported water. The oil stimulates the kidney ages.

OAKLAND TRIBUNE, Oakland's greatest evening newspaper.

American Theatre Forms "Matinee Travel Club" to Accommodate Tremendous Evening Crowds

SCENES SIMILAR TO THIS are strikingly familiar to the thousands of devotees of "Better Pictures," who attend the evening performances at the American Theatre. It is to facilitate the accommodation of the tremendous night crowds that the management of the American has originated the "MATINEE TRAVEL CLUB."

YOU

can assist in the accomplishment of this novel plan and be handsomely rewarded.

The constantly increasing throngs of "particular" devotees of the silent drama, which nightly tax the capacity of the American Theatre, have reached such proportions that it has become necessary for the management to devise, and immediately execute, some plan whereby the congestion at the evening performances may be relieved.

The enlargement of the theatre being an impracticability, there remains but one feasible solution to the problem and that is to induce a greater number of people to attend the afternoon performances.

As a means of accomplishing this result, the management of the American has conceived, and put in operation, the novel plan of forming a "Matinee Travel Club." The instantaneous popularity of this plan is attested by the fact that any person, by simply devoting a portion of their time, during the next month, towards increasing the matinee attendance at the American, be handsomely rewarded for his or her efforts.

Any man, woman, boy or girl is eligible to membership in the Travel Club—there will be no initial cost or subsequent expense—and the rewards are most alluring.

A TRIP TO THE BATTLEFIELDS OF FRANCE

With all expenses paid, or \$1200.00 in cash

IS THE FIRST AWARD IN THE MATINEE TRAVEL CLUB

A ONE-YEAR ENGAGEMENT

To PLAY in the MOVIES

A one-year contract to play with the Metro Film Company of Los Angeles in their feature pictures at a guaranteed salary of \$25.00 per week, or \$800.00 cash in lieu of contract is the second award.

A TRIP to YOSEMITE

With all expenses paid. OR \$150.00 cash is the third award.

FOURTH TO FOURTEENTH AWARDS—An Annual Pass to the American.

FIFTEENTH TO TWENTY-FIFTH AWARDS—A Six Months' Pass to the American.

TWENTY-SIXTH TO THIRTY-FIFTH AWARDS—A 3 Months' Pass to the American.

EVERY PERSON who joins the Matinee Travel Club and is unsuccessful in winning one of the above awards will be adequately recompensed for his or her efforts.

HOW

to become a member of the American Theater

MATINEE TRAVEL CLUB

To join the MATINEE TRAVEL CLUB is a simple matter. Fill out the entry blank below, and mail it, or bring it in person to the Travel Club Manager, American Theatre, who will explain the plan to you in detail.

Any man, woman, boy or girl, is eligible to join the Travel Club.

Mail or Hand in YOUR Blank TODAY.

You Cannot Hide Fat

If too thin, your dress-maker or tailor can supply the deficiencies, but the overfat carry a burden they can not conceal.

There is but one alternative—reducing! To do so it is no longer necessary to go in for starvation diets and exhaustive exercising. There is now a safe, sure, easy, pleasant way. Just take one little harmless Marmola Prescription Tablet after each meal and at bed time and you'll literally see your fat vanish. Each tablet contains an exact dose of the most harmless ingredients that made the original Marmola prescription capable of reducing the overall body at the rate of two, three, or four pounds a week without the slightest ill effects. Ask your druggist for Marmola Prescription Tablets, or send to the Marmola Co., 401 Grand Boulevard, Detroit, Mich., and you will receive for 75c a full course—enough to start you on your way to happy, new. Try it!

THREE TIMES A WEEK FOR THREE WEEKS

After the long winter months, too much rich food and too little exercise, practically everyone feels the necessity for a good Spring Tonic and Blood Purifier. The very best spring medicine you can take is the king of tonic laxatives—

CELERY KING

Three times a week for three weeks, brew a cup of this purely vegetable laxative tea and drink it just before retiring. Gently, yet effectively, it will drive out all impurities and not only make you feel better, but look better, rub away, giving you a sweet breath, clear skin and a healthy appetite.

If you saw it in The TRIBUNE, tell them so. Thank you.

GERMAN ARMY NOW HAS NO DISTRICT UNIT

COBILENZ, March 24.—There is no longer any set standard for the strength of a division in the German army, says an American expert. This is regarded as important in view of the fact that delegates at the Peace Conference not long ago suggested that the German army be limited to six divisions.

At the beginning of the war a German division comprised about 16,000 men. In the latter part of the war the divisions consisted of three infantry and one artillery regiments, with pioneers, signalmen and various other technical troops numbering approximately 9,000 men. At present, it is declared, no division in the German army has 5,000 men and there are probably divisions with less than one thousand men.

In demobilization it has obviously been the policy to retain the regimental prime unit but to make in existence all divisional staffs of divisions which existed in July, 1914.

It is probable, according to the experts with the American army of Occupation, that there still exist in the German army one hundred or more divisional staffs in more or less skeleton form. These divisions are "demobilized" but not dissolved. Apparently it has been the purpose to retain a considerable number of staffs in skeleton form until the future of the German army is definitely decided by the National Assembly in Weimar.

Taking these facts into consideration, the American officers who have made a careful study of the demobilization of the German army as well as all other activities of the enemy troops say that the term division in connection with the present German army has no future. In connection with the future army of Germany the Americans assert that the term division requires a defining clause such as a "division on pre-war establishment," as a "division on establishment basis existing November 11, 1918."

Auto Tank Filled With Liquor Illegal

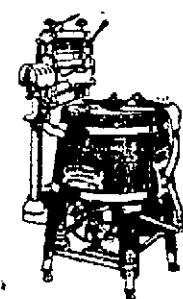

PORTLAND, Ore., March 25.—In the federal court Roy Merrill was sentenced to four months' imprisonment and to pay a fine of \$1,000 and T. J. Patterson received sentence of five months and a similar fine to Merrill's. The two men had been convicted for violation of the Reed amendment by importing liquor in a tank hung beneath an automobile which they shipped as freight.

KILLED BY WIRE.
FRESNO, March 25.—It is S. Pike, employee of an ice company here, died of burns sustained Saturday when he came in contact with a 550-volt electric wire on the roof of the company's plant. He at- tempted to step over a wire a short distance above the roof, when his knee touched it. The shock drove him to the wire and while workmen crowded around, unable to help him, Pike's clothing took fire. It took the workmen three minutes to "ground" the wire.

Oven Glassware

bakes an even crust top and bottom. Clean and economical to use because you cook and serve in the same dish!

Custard cups are 25c each; shirred egg dishes, 65c each; pie plates, 85c each; uncovered vegetable dishes, 90c and \$1.20 each; covered vegetable dishes, \$2.25 each; bread pans, \$1 each; brown Betty pans, \$2.25 each, and a dozen other useful pieces are offered at HOWELL-DOHRMANN'S.

The Wonderful "One Minute" Washing Machine

\$2 down—\$2 a week

NOTICE

To Boilermakers and Helpers

The undersigned are members of the California Metal Trades Association. As such they have kept faith with all agreements made between the association, acting for member employers, and the Iron Trades Council, acting for member unions.

Members of Boilermakers' Union No. 6 employed by us are out on strike in violation of an agreement made for them and other metal trades unions by the Iron Trades Council.

Article 9 of the agreement says:

During the life of this agreement there shall be no strikes on the part of the employees nor lockouts on the part of the employers.

By its violation of this agreement Union No. 6 has forfeited its membership in the Iron Trades Council.

Our shops have been tied up since February 1 by this strike and in an effort to show that we desire to co-operate with the Iron Trades Council, we have addressed to them the following letter:

Referring to the agreement of January 2, 1918, the reason and spirit thereof was and is that you were to supply such members of our association as employed members of the various unions specified in said agreement (and which included boilermakers) with sufficient men to enable them to keep their industries operating. As you are aware, such members of our association have been without the services of any boilermakers since February 1, due to the expulsion of Boilermakers' Union No. 6 from your council.

Inasmuch as it is your obligation under the agreement to furnish said members of our association with boilermakers to enable them to keep their industries operating, we hereby demand of you that you immediately supply them with sufficient boilermakers to enable them to continue their operations and keep their business running. You have records of the number of boilermakers who have quit to enable you to ascertain the number necessary to furnish substitutes therefor.

We request you to reply immediately, telling us what you propose to do. Failing to hear from you we shall understand that you decline to accede to our demand, and we shall thereupon take steps ourselves to obtain for said members a sufficient number of boilermakers to keep their industries operating.

To date we have received no reply to this letter. THEREFORE, WE NOW GIVE NOTICE that we will resume operations Thursday, March 27, and that there are jobs in our shops now open to competent men.

The basic working week will be 48 hours with basic wages as follows:

Boilermakers \$6.40 a day
Boilermakers' helpers \$4.64 a day

California Metal Trades Association
For Master Boilermakers' Division

NOTICE

To Machinists, Specialists and Helpers

The undersigned are members of the California Metal Trades Association. As such they have kept faith with all agreements made between the association, acting for member employers, and the Iron Trades Council, acting for member unions.

Members of Machinists' Unions No. 68 and No. 284 employed by us, are out on strike in violation of an agreement made for them and other metal trades unions by the Iron Trades Council.

Article 9 of the agreement says:

During the life of this agreement there shall be no strikes on the part of the employees nor lockouts on the part of the employers.

By their violation of this agreement unions 68 and 284 have forfeited membership in the Iron Trades Council.

Our shops have been tied up since February 1 by this strike and in an effort to show that we desire to co-operate with the Iron Trades Council, we have addressed to them the following letter:

Referring to the agreement of January 2, 1918, the reason and spirit thereof was and is that you were to supply such members of our association as employed members of the various unions specified in said agreement (and which included machinists) with sufficient men to enable them to keep their industries operating. As you are aware, such members of our association have been without the services of any machinists since February 1, due to the expulsion of Machinists' Unions Nos. 68 and 284 from your council.

Inasmuch as it is your obligation under the agreement to furnish said members of our association with machinists to enable them to keep their industries operating, we hereby demand of you that you immediately supply them with sufficient machinists to enable them to continue their operations and keep their business running. You have records of the number of machinists who have quit to enable you to ascertain the number necessary to furnish substitutes therefor.

We request you to reply immediately, telling us what you propose to do. Failing to hear from you we shall understand that you decline to accede to our demand, and we shall thereupon take steps ourselves to obtain for said members a sufficient number of machinists to keep their industries operating.

To date we have received no reply to this letter. THEREFORE, WE NOW GIVE NOTICE that we will resume operations Thursday, March 27, and that there are jobs in our shops now open to competent men.

The basic working week will be 48 hours with basic wages as follows:

Machinists \$6.40 a day
Machinists' specialists \$4.96 a day
Machinists' helpers \$4.64 a day

WIFE PLEADS GUILTY; SAVES HER HUSBAND

Following a plea of guilty to having violated the federal social evil prohibition in Oakland during January 17 and March 19, the day of her arrest, Mrs. Ruth Bell, 2811 Seventh street, Berkeley, today succeeded in obtaining the discharge of her husband, Henry E. Bell, University of California student. It was to finance his

education that she had become a woman of the streets.

Sentence was continued by Judge E. E. Cushman until Thursday at the request of special attorney James E. Colston, who indicated that a plea of demerit would be made.

In the hearing of young Bell before U. S. Commissioner Thomas E. Hayden, Frank Gossling, department of justice operative; Sergeant C. L. Hempill and Policewoman E. C. Summers of the Oakland department, who arrested Bell following his wife's arrest, testified that he had admitted his wife of a year was living an immoral life and he was paying for a course in marine engineering at University of California from her earnings.

This Bell denied. "It made any statement of any kind, it was to protect my wife," he said.

On the recommendation of Colston, Commissioner Hayden discharged the youth. He will go to Nevada, where he has obtained employment, and he will make a new home for us, where we will be very happy."

Co-Ed Will Defy Warning Against College Flirting

MISS MONA GARDNER.

English Club at University to Give Four Plays Tomorrow Night.

Berkeley, March 25.—Despite the warning to college girls that flirting is "playing with fire," one of the fairest of the co-eds on the University of California campus has flung the well-meant words of advice to the winds.

For at tomorrow night's annual performance of the English club of the university to be given in the Berkeley high school auditorium, Miss Mona Gardner, pretty member of the University of California, will reveal in the center of a whole act of the performance.

Miss Gardner is cast in the only female role of "The Passport," a clever one-act play by Edward Knoblauch, in which she uses her wiles upon Charles Cummings, member of the "22 class in college, the only other person in the cast. The Passport is one of four interesting plays to be presented by the club under the direction of Professor Samuel J. Hume. All of the productions are of the modern humorous type planned in contrast to the Shakespearean performances of other years.

Chief among the plays will be "George and the Girl," in which four of the best known male thespians on the campus will participate. The other two offerings are to be "The Bank Account" (Howard Brooks) and "Suppressed Desires" by Cook and Gospen.

In the cast of the last-named are Miss Lorraine Williamson, Miss M. Houghton and George Redpath, while appearing in "The Bank Account" will be Miss Pearl Davis, Miss Edith Hagan and Frank Gilling.

Tomorrow night's performance is planned as a benefit for a proposed students' union on the campus and will be followed by a cabaret and dance in the high school gymnasium, the proceeds from the latter event to go to the same fund. Dancing will start at 10 o'clock, continuing until midnight.

Wife Sues to Annul
Joy Ride Marriage

Every road house along the way contributed its portion of joy of a distinctive joy ride taken in 1917 by Helen Hansen and Howell B. Auerbach, and the trip culminated in their marriage at Santa Rosa, according to the suit of Mrs. Auerbach for annulment, filed today in the county clerk's office. She alleges that when they reached Santa Rosa she was intoxicated and did not know what she was doing. She claims that as soon as she realized she had been married she repudiated the contract and never lived with her husband. During the trip, the complaint recites, "wines flowed like water."

Mrs. Auerbach, 28, claims she needed new clothes and in order to impress her husband with the necessity she burned all her old ones, according to the divorce complaint of Lewis H. Hearn. He also alleges that she neglected to feed the

Discuss Details
of Health Survey

Details of a proposed "health survey" for Oakland were discussed today at a conference held in the offices of Commissioner of Public Health and Safety P. F. Morse, in which Dr. M. Gray of the State health board; Dr. Daniel Crosby, county health officer; and Dr. H. H. Samuels participated. The work will be carried out in conformity with the general health survey plan to be carried out in the large cities of America.

The plan is to conduct inquiries as to tenement districts, housing conditions, disease, and other matters. The health work will be studied generally by the Federal authorities.

Brighten Lights
Near Car Lines

Are lights placed along the lines of the Oakland street car system, and maintained under the various franchises of the city, to be replaced by 600 candle power incandescent lamps, according to the notification given the city council today by General Manager W. R. Abberger of the street car lines.

Abberger holds that the new lights are more reliable, light and being more economical. They are now used in all large cities, according to Abberger.

Reward Is Offered
in Inez Reed Case

For the arrest and conviction of the murderers of Inez E. Reed, the Board of Supervisors of San Mateo county has offered a reward of \$500.

It was a member of the board that a substantial reward might induce persons having knowledge of the crime to tell what they know that the San Mateo authorities voted to offer the reward.

Athletic Training
for Business Men

Own-to-the-minute physical rejuvenation is the purpose of an athletic club just organized in Oakland for business and professional men. The rooms at 422 Fourteenth street are supplied with the latest devices in the way of apparatus, and a water room is finding particular welcome.

The training is directed by Professor Robert Edmond, physical director of the Olympic club in San Francisco. Membership is limited to 50 and members have their training course supervised three times weekly.

Footpads Frightened
by Empty Revolver

Charles B. Moytt purchased a new revolver and was carrying it empty in his pocket. At Ninety-sixth avenue and Cherry street, two footpads halted him. Moytt drew the unloaded revolver, he told the police today, and the bandits fled. Moytt, who lives at 3422 Cherry street, gave the police a description of the pair.

OPPOSITION TO ECONOMY BILLS FADES

SACRAMENTO, March 25.—The first bills embodying Governor Stephens' ideas on economy and efficiency probably will be introduced in the legislature today. They will provide for the \$275,000 annual saving which was the net retrenchment urged in the report of his commission on economy and efficiency of state government departments.

Opposition to the administration tax saving program, manifested earlier by legislators from the south who had made their campaign on economy platform, seems to have waned. Assemblyman Fleming, leader of the Los Angeles delegation, is authority for the statement that there will be no organized opposition. There will be organization bills however, presenting the retrenchment program of the taxpayers' association.

These will be presented following the arrival here Wednesday of Will H. Miller, secretary of the association. The taxpayers' organization, which has been giving publicity to the economy demands echoing up from Los Angeles, wants to have more of the economy commission's program put into effect immediately. Governor Stephens, in his special message, it will be recalled, advocated the postponement of two years of any drastic changes in the present governmental organization.

The opposition economy bills are to be introduced more for the purpose of fulfilling campaign pledges apparently than as an idea to pressing them for passage.

SAN LEANDRAN ARRESTED FOR TAKING OWN CAR

William Matthews of San Leandro today occupies the distinction of having been arrested for stealing his own automobile.

His free, and all is explained. It's a story something like a movie film.

Sunday Matthews lost his auto and a little while later the San Francisco police found it and restored it to the owner. The Oakland police, in the meantime, kept on hunting for the machine.

While Matthews was dining in a restaurant Patrolman H. Stephens "spotted" the car! "Ah! and also 'Hist!'"

He sent in an alarm. A warrant of police was issued, and Matthews was arrested. Then they let him go.

Offers to Pay
Penalty for
Girl Poisoner

SEATTLE, March 25.—Kendrick J. Wilson, member of the Royal Flying Corps, today offered to pay the penalty for the crime of Ruth Garrison, charged with poisoning Mrs. Grace Storrs.

Wilson called up local newspapers and made his offer.

"I believe the girl is only a child who does not realize what she has done," he said. "For that reason I will offer myself to either serve her sentence or give my life if necessary."

Hold Trio to Answer
to Robbery Charge

Charles Holston and Tony Easton, accused "strong arm men" and held by the police to be members of the Lutz Bruno-Reichert burglary gang, were held to answer on a grand larceny charge today by Judge James H. Smith. Their bail was fixed at \$500 each and they were remanded to the county jail awaiting superior court trial.

The two men were arrested on a charge of robbery, following a holdup on the Webster street bridge. The men were connected, according to the police, with the sale of loot netted by the confessed Reichert and Labano gang. In Holston's room was found a supply of "knockout drops," and the police say that these were used in several cases where men were drugged in saloons and robbed.

Charge Uniformed
Men Given Liquor

Following charges by the United States protest guard that discharged soldiers, still in uniform, have been served drinks in Oakland saloons, Commissioner P. F. Morse took steps today to notify all liquor dealers in the city that, irrespective of whether a man is discharged from the army or not, if he is in uniform or wears any part of a uniform, he cannot be served drinks.

Morse's action follows a letter from Lieutenant G. M. Sturgis, who says that convicts come to him that soldiers in uniform, although discharged from the army, have been getting liquor here. Sturgis asked that an apparent misunderstanding of the local liquor dealers be set right by regulation or otherwise.

Political Club to
Open Headquarters

The Oakland Woman's Club of which Mrs. H. J. Platt is president, will open its new headquarters in room 208, Bacon building, on Thursday. Their activity up to the present time has been the formal endorsement of Joseph H. King as candidate for mayor. A meeting is arranged for Thursday, April 3, in the assembly room of the Bacon building when all the women candidates at the April election will be called upon to speak.

\$165 Alimony Asked;
Desertion Charged

Mrs. Adeline H. Frederick asks for \$165 a month alimony from Leonard E. Frederick, whom she charged with deserting her and her three children, in her divorce complaint filed today. She alleges that he earns \$365 a month.

Viola L. Saunders accuses Harry L. Saunders of associating with other women, inflicting extreme cruelties upon her. Sarah A. Spear charges desertion against John W. Spear, and Pauline Lapanovich alleges desertion against Tony Lapanovich.

160th Infantry to
Stop Over in S. F.

The 160th Infantry, composed of former National Guardsmen from northern and central California cities, will stop in San Francisco en route to Camp Kearney for demobilization, the war department announced.

The 160th arrived in New York yesterday from overseas.

LEPER YEARNS FOR BIRTHDAY PARTY, CAKE

Harry Padree, leper, will be twenty-two years old on Thursday. For eighteen months he has made his home in the leper compound at the "Alameda" County Infirmary, put away by a high wire fence into a little path of ground from where he knows there is no leaving. The great fear that is in Padree's soul is that his mother, back in the eastern home, shall learn that her son is a leper. She has never been told. He has his friends, wife and keep in touch with her, but never can he write himself. He has no relatives in all of California to care.

Padree wants a real birthday party. He wants a cake with candles, maybe, that his fellow lepers can share, and he wants just a few simple things which may not stand for wealth or luxury but will stand for remembrance.

So out at the compound he waits to see what Thursday and generous strangers will bring to him in honor of the anniversary.

Committee Chosen
for Labor Temple

Last night's session of the Central Labor Council of Alameda County was given over to a discussion of labor temple affairs. The committee of seventy-five, appointed at the session of the council two weeks ago, made its report and notified the body that the following had been selected from its personnel as a permanent committee on labor temple building affairs:

John Altman, S. W. Lore, George C. Davis, W. A. Spooner, E. Burlingame, W. E. Castro, D. P. Sullivan, George Manning, H. Mastin, Henry Elum, E. Drake, John Cummings, W. Daniels, H. C. Hansen and T. Aviata.

At the conclusion of the meeting of the council the committee of fifteen met and perfected its organization. Percy Burlingame, president of the local Building Trades' Council, was elected chairman, and W. A. Spooner, secretary of the Central Labor Council, secretary. The committee will meet this evening "to start to work on a labor temple." Its members are clothed with full powers in the premises, it is stated.

Bill Discounted for
Obeying U. S. Order

The federal government's order for the confiscation of food sent to the rescue of the Kinema Theater today in Justice of the Peace Harry W. Pulver's court and saved it money. The theater was sued by the Novelty Electric Sign Company for the rent of electric signs for the theater. The order was in effect. The defendants claimed that as they were unable to light the letters they should not have to pay for them.

The plaintiff claimed that the letters were used away and that they were a sign by day as well as by night. With this contention the court agreed, as to the day time, but held that for obeying the government the defendant should not be penalized and discounted the bill. The period involved was from August 3 to November 5, 1918.

Greeters to Gather
at Hotel Banquet

Members of Charter No. 4 of the Greeters, to the number of 150, will be guests tomorrow night of W. C. Jurgens, manager of the Hotel Hamilton, at a banquet and ball arranged in their honor at that hotel. This organization is comprised of hotel men in all parts of the United States. The guests who will attend the function tomorrow evening are all Oakland and San Francisco hotel men. W. Hammond Williams, president of Charter No. 4 and assistant manager of the Fairmont Hotel, and Francis Patrick Shanley, vice-president of the national organization of Greeters and proprietor of the Continental hotels in San Francisco and Los Angeles, will be among the guests. Both are expected to give talks.

1147 Courtmartial
Sentences Reduced

WASHINGTON, March 25.—Reduction of 1147 sentences imposed by courtmartial, out of 12,472 cases considered, was announced by the clemency board of the adjutant general's office this afternoon. The sentences reduced, it was stated, the average time taken off was 30 per cent.

There were 272 sentences of absence without leave, of which 117 were recommended for reduction; 51 for mutiny, with ten recommended; 600 sleeping on post, 62 recommended; 119 for disobedience of orders, 103 recommended; 238 disobedience of regulations, 46 recommended; 175 assault and battery, 10 recommended; and 143 miscellaneous with 200 recommended.

National Organizer
of W.C.T.U. as Guest

Mrs. Florence Fowell Atkins of Georgia, lecturer and organizer of the National Woman's Christian Temperance Union, will be the guest of honor at the jubilee luncheon Saturday at 12:30, March 29, at the Hotel Harrison, Fourteenth and Harrison streets. The luncheon is under the auspices of the Alameda County W. C. T. U. Reservations can be made until Friday noon. Phone Mrs. S. C. Borland, Oakland 2538 Public Welfare office.

William F. Merrill Is Buried by Masons

The funeral of William Frank Merrill, who died at his home, 1012 East Sixteenth street, after an illness of three months, was held at the Brooklyn Masonic chapel, Eighth avenue and Fourteenth street, at 2 o'clock this afternoon. The service was conducted by the Brooklyn lodge of Masons, of which Merrill was a member.

Merrill was born in Dixfield, Maine, in 1848. He came west when he was 21 years old, settled in Oakland shortly afterwards. He would have been 71 years old next June.

Merrill is survived by a widow, Mrs. Julia Merrill, four children, George, Frank A., Charles Merrill, and Mrs. A. Cheable. The sons reside around the bay and Mrs. Cheable at East California. Three step children are Mrs. W. T. Milstone and Mr. and Mrs. John Forrest, all of Oakland.

Burglar Suspect
Questions Witnesses

West Oakland's alleged "ghost" burglar conducted his own defense in Police Judge Samuel's court this morning. James Smith, a negro, questioned the policeman who had arrested him and the man who says he chased him out of his house.

Smith is said to have been seen several times prowling at night in the West Oakland section and to have been shot at by several persons. William Nelson, 1119 Sixteenth street, identified him after his arrest as the man whom he had chased out of his house at 3:30 a. m. February 19. According to Nelson, he chased Smith through several rooms, through the yard and down the street, where Smith got away.

Smith secured a continuance to allow him to subpoena witnesses.

WE offer you something that has solved all baking problems in millions of homes—that is economical to buy and economical to use and we do not believe the shrewd housewife of OAKLAND will refuse to test the truth of these statements.

Manufacturers of other brands of baking powder know better than anyone else how good Calumet Baking Powder really is.

They know it is pure and wholesome and that in a great majority of cases when a housewife has tried Calumet she will use nothing else. Consequently they attempt to prevent a trial wherever possible.

They are actuated by purely selfish motives—they fear you will quit buying what they have to offer and use something that may prove to be a great deal better.

Learn the facts about baking powder and then decide for yourself. You can try Calumet—at our risk. If it isn't the best baking powder you ever had in your kitchen it won't cost you a penny.

The exceptional merit of Calumet is proved by the efforts of competitors to prevent a trial.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

Not Sober for Week, Divorce Suit Charge

SAN FRANCISCO, March 25.—The cause he claims that his wife, Mrs. Eliza Asher Wilson Jordan, 1227 Shattuck street, wrote to him that she had not been sober for a week, that she would take some of the others she had and live in luxury and swell clothes, automobile rides, some music and a shell companion for a "sweetheart" John T. Jordan, an electrical contractor, 75 Sanchez street, in asking a divorce on the ground of cruelty.

The Jordans were married on April 11, 1916. They separated a few weeks ago. The letters which were introduced yesterday were written by Mrs. Jordan to her husband according to his complaint in August and September of last year while he was serving in the army.

If you saw it in The TRIBUNE, tell them "O. Thank you."

Madame Buffet Comes to Sing to Aid French

MADAME EUGENIE BUFFET.

Woman Decorated for Noble Work Will Give Grande Soiree Here Monday

Madame Eugenie Buffet who wears the decoration of the Legion of Honor (high command) said to be the only woman in America to have that honor, is in Oakland from her war torn France, where for three years she went about the trenches, hearing the soldiers with her song reaching out her tender hands and smiling them back into courage, she has come to find in Oakland her second Cannes, Monte Carlo and Nice.

"It reminds me," she whispers "it reminds me" And so does France once again see in California a likeness unto itself.

Oh the wonderful country this of yours and the kind people, she proclaims.

Two years ago Mme. Buffet left her native land to seek rest and refuge for the people of her heart in South America. Her song took her on a triumphal tour of Chile, Peru, the Canal Zone, and finally brought her to New Orleans. Ever there she was required in steady streams into her lap for the blind of France and the little children of the artists who have been killed in the wars. Now she is in Oakland.

SEEK AID FOR POOR.

It was a sensation of the month in Paris when the chanteuse Ambulante, an interpreter for charitable purposes by Mme. Severino and Mme. Buffet was launched. Mme. Buffet, Rene Bru and M. Claudius comprised the group of musicians who started forth as strolling players to be distributed among the poor.

She has come now to Oakland to sing the songs of France and to raise the funds of the great between the American soldiers and a number of German civilians at Gutz, a suburb of Coblenz, on March 15. In the fight one American private was stabbed to death and another was severely wounded, while two Germans sustained stab wounds. These men with several other Germans are being held for trial.

FRED BOEGLE IS SERIOUSLY HURT

Fred Boegle, secretary of the California Manufacturers' Association and former secretary of the Manufacturers' Committee of the Chamber of Commerce, is in a critical condition at the Providence Hospital, following an automobile accident at East Twelfth street and Seventh avenue last night, when his automobile struck a telephone pole.

Boegle was hurled from his machine, sustaining a possible fracture of the skull as well as severe cuts and bruises.

He was picked up by the police and taken to the Emergency Hospital, whence he was removed to the Providence.

According to the police he was driving at a high rate of speed along East Twelfth street, when his machine suddenly swerved to the curb and he believed his steering gear suddenly went wrong.

A Home Made Gray Hair Remedy

Gray streaked or faded hair can be immediately made black, brown or light brown, whichever shade you desire, by the use of the following remedy that you can make at home.

"Merely get a box of Orle powder at any drug store. It costs very little and no extra to buy. Dissolve it in 4 oz. of distilled or rain water, come through the hair. Directions for mixing and use come in each box.

"You need not hesitate to use Orle, as a \$100.00 gold bond comes in with it, guaranteeing that the Orle powder does not contain silver, lead, zinc, sulphur, mercury, antine, coal-tar products or their derivatives.

"It does not rub off, is not sticky or greasy, and leaves the hair fluffy. It will make a gray haired person look twenty years younger."—Advertisement.

The Best Cough Syrup Is Home-made

Here's an easy way to save \$2, and yet have the best cough remedy you ever used.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever heard of a cough syrup that is not only a permanent plan in your home, but is also a powerful, effective, and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a pint bottle, pour 8 1/2 ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. It is good for colds, whooping cough, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine eucalypti, and has been used for generations for throat and chest ailments.

To avoid disappointment ask your druggist for "9's ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

JOYFUL EATING

Unless your food is digested without the aftermath of painful acidity, the joy is taken out of both eating and living.

KI-MOIDS

are wonderful in their help to the stomach troubled with over-acidity. Pleasant to take—relief prompt and definite.

Americans and Huns in Fatal Street Fight

COBLENZ, March 25.—(By The Associated Press.)—American army headquarters has completed the investigation of the fight between three American soldiers and a number of German civilians at Gutz, a suburb of Coblenz, on March 15. In the fight one American private was stabbed to death and another was severely wounded, while two Germans sustained stab wounds. These men with several other Germans are being held for trial.

The Americans contend the fight began when a German made remarks remaining upon Americans, which were resented by the soldiers. The Germans maintain the Americans stopped them on the street, destroyed their individual permits and attempted to separate a German girl from two companions, one of whom was her brother.

This is the first fight which has had fatal results that has occurred since the American troops occupied this city.

Wounded Soldiers Arrive at Mole

A contingent of wounded soldiers arrived at the Oakland mole on Southern Pacific train No. 19 at 2 o'clock this afternoon. The men comprise a company of five who are being sent west for treatment at the Letterman general hospital at the Presidio of San Francisco and others who live in California and who will be discharged.

The train was met by members of the Red Cross. Most of the contingent was direct from France.

When Skin Ails How You Prize Poslam's Help

Broken-out, aggravated itching skin is a condition demanding the best soothing, healing, antiseptic treatment for its speedy correction. This Poslam supplies. It is a cooling, readily, reliably, attacking stubborn troubles like eczema with a concentrated healing energy that soon brings improvement. So little does so much and makes short work of pimples, rashes, "rain-scald," cleaning inflamed complexions over night.

Sold everywhere. For free sample write to Emergency Laboratories, 243 West 4th St., New York City.

Try your skin to become clearer, brighter, better by the daily use of Poslam Soap, medicated with Poslam—Advertisement.

Fat People of Oakland

Become slender gracefully, readily, happily. At the drugstore get a small box of all of Korth. Follow easy directions if you want to lose 10 to 60 pounds superfluous, burdensome fat and lengthen your life. Absolutely safe. The only guaranteed "eight"-reducing treatment. Endorsed by physicians—Advertisement.

TUESDAY, MARCH 25, 1919.

CHANGES IN HUNGARY.

The political changes in Hungary wherein the
provisional republican government has, accord-
ing to report, fallen into the control of the Bol-
sheviki will be serious only if the Allied govern-
ments hesitate to adopt every means at their
disposal to maintain order. They are in a position
to take prompt and adequate measures against
this fresh uprising of outlawry.

Allied forces in the Balkans are strong and
well organized. The Czechoslovak army, in
which the Serbian units predominate, the Franco-
British army of Macedonia, and the Italian army
are in position to take immediate control of the
situation. On the north and east of Hungary are
also the Franco-Rumanian divisions, and Allied
ships control the Black sea. Complete military
occupation of Hungary is the one sure way of
defending the Allied countries against this latest
recrudescence of German hostility. No half way
or temporizing proposals should be entertained.

Bolshevism is a German creation, the unlively
child of Kultur. Bolsheviki are agents of Ger-
many. They are a living embodiment of the
"scrap of paper" and the "might is right" doc-
trine. Beaten in all other efforts, the powers that
control affairs in Germany are using the Bolshe-
viki to save for Prussianism as much as possible
from the defeat suffered at the hands of the
Allied armies. This maneuver must also be
countered by military force if it is to be met suc-
cessfully at all.

Occupation of Hungary by an Allied army
would greatly aid the Allies in restoring peace in
Europe. It would establish contact between the
friendly forces on the west and Poland, Czechoslovakia
and Rumania. Thus a belt of steel, the
only thing the Teutonic mind can comprehend,
would be thrown around Germany. The Ruman-
ians, Czechoslovaks, Poles and the Jugo-Slavs
would be permitted more speedily to establish
permanent order.

TROUBLE ON THE RIO GRANDE.

Once again it has been necessary for a detach-
ment of United States cavalry to cross the Rio
Grande in pursuit of raiding Mexican bandits.
As in former instances they met with fair suc-
cess, five of the Mexican outlaws being killed.

That the Mexican government is not fulfilling
its obligation to maintain order along the
Mexican border has been evident for the last
twelve days. The town of Pearson in Northern
Chihuahua was raided by the bandits Martin
Lopez and Ramon Vega on March 6. A day or
so later this bandit gang descended upon Las
Cruces and took prisoner James E. Whetten, an
American citizen in business in Mexico. With
Whetten was also taken Joseph Bentley, a bishop
of the Mormon church. Lopez, who is a Villa
leader, demanded a \$5000 ransom under threat
of executing the two men.

Representative Edward L. Hamilton of Mich-
igan has called the attention of the State De-
partment at Washington to the steady increase
in Mexican outrages on the border, with the im-
plied demand that the national government take
some step to see that the protection to which
Americans are entitled is extended by the govern-
ment of President Carranza. Washington reports
are to the effect that fresh representations have
been made at Mexico City in this connection. But
the raid at Marfa Sunday indicates that the Mex-
ican government has not yet responded with favor-
able action.

Is it possible that there is about to be ushered
in another period of Mexican murders and thefts
on American soil accompanied by mild-mannered
protests from Washington? Let it be hoped that
such is not the case. So long as it was possible
to believe that raiding Mexicans were confined
to outlaw gangs there was some excuse for pa-
tience and temporizing with the central govern-
ment, until it could attain sufficient strength to
enforce order. It is now apparent, however, that
there are other motives for the depredations than

pure brigandage. German propagandists are still
in Mexico. They are promoting Bolshevik agita-
tions against both the Mexican and American
governments.

This political factor in the situation along the
Rio Grande demands prompt and effective action
on the part of the administration at Washington.

OIL IN THE WAR.

An event of importance not only to the people
of the country, but to California in particular,
is the organization recently in New York City
of what is known as the American Petroleum
Institute. This organization grew out of the
National War Service Committee, and it will be
to the oil industry what the Iron and Steel In-
stitute is to the steel trade. That is, it will
afford a means of cooperating with the govern-
ment in all matters of national concern. It will
further foreign and domestic trade in American
petroleum products and promote in general the
interests of the petroleum industry in all of its
branches.

This organization was formed by the leading
oil men—producers, refiners and distributors—
of the United States, Mexico and Canada. Its
first executive head is Mr. A. C. Bedford, presi-
dent of the Standard Oil Company of New Jersey,
who was chairman of the National Petroleum War
Service Committee and who was decorated at the
banquet following the organization of the Ameri-
can Petroleum Institute by an official represen-
tative of the French government with the Legion
of Honor. Among the speakers at this banquet
was the naval attaché of the British government
in Washington, who disclosed some interesting
facts about the remarkable work done by the oil
men of the United States during the war.

The oil industry of the United States was not
taken over by the government. It was managed
by a number of highly intelligent and practical
men who were experts in the different branches
of the petroleum industry. Mr. Mark L. Requa
of Oakland was the point of contact between them
and the government. These men did their work
so well that the numerous needs of our own gov-
ernment and of our allies for oil and gasoline
during the war were fully met without any
serious disturbance in this country and without
any considerable increase in prices.

General Foch said to one of our official repre-
sentatives abroad: "If you don't keep up your
petroleum system we shall lose the war." Captain
Snagge of the British navy stated in his speech
that if the American petroleum supply had been
cut off 48 per cent of the British naval forces
would have been paralyzed. The British naval
patrol in European waters covered seven million
miles a month. The British Admiralty in the be-
ginning of the war controlled 638 vessels; this
number rose before the end of the war to 5649.
In October, 1917, 206,000 tons of fuel oil were
shipped from America for the use of the British
forces. A year or so later this had risen to the
stupendous figure of 2,628,000 tons. Captain
Snagge declared that "The winning of the war
depended upon the winning of oil by Mr. Bed-
ford."

America contributed 80 per cent of the total
petroleum products used in the winning of the
war. The basic problem was to see to it that there
should be a sufficient production of crude oil and
that prices should not unduly advance. The
second problem was transportation; that is, get-
ting oil to the refineries, then delivering the var-
ious petroleum products where they were needed
to do their work. Both of these problems were
solved to the thorough satisfaction of our govern-
ment and of our allies. Moreover, these problems
were solved with a minimum of disturbance to
the industry and with the good will and coopera-
tive effort of the oil men of this country which
entitled them to the gratitude of all citizens.

The production of crude oil was increased more
than 5,000,000 barrels a year during the progress
of the war. When the war closed the American
tankers afloat were 635,507 gross tons, and 51
per cent of the total gross tonnage of the tankers
in service between this country and our allies
were American-owned. At the close of the war
we were exporting each month for war purposes
2,200,000 barrels of fuel oil, 750,000 barrels of
motor gasoline, 500,000 barrels of kerosene, 175-
000 barrels of aviators' naphtha.

So for a considerable time before the armistice
was signed the matter of adequate supplies of
petroleum products from America had ceased to be
a matter of anxiety to our army and navy
overseas and to our allies. This great result was
accomplished in the face of vast difficulties, and
for those who conveyed it abroad in tankers in
the face of very real and terrible danger. Many
of the oil ships were attacked by submarines and
a considerable number of lives were lost, but in
spite of all obstacles the work went on and the
men who were responsible for the organization of
the petroleum industry in the United States
never faltered or failed in their purpose to deliver
all of the petroleum products necessary for the
winning of the war where they were wanted and
when they were wanted.

Berlin authorities captured several hundred
alleged insurgents and in order to expedite
the work of executing them threw them into a
walled compound and turned machine guns on
them. It was a slaughter. More than 100 years
ago France used the guillotine on rebels and sus-
pected rebels against the established government
authority. Germany is obviously far behind the
France of a century ago.

NOTES and COMMENT

The consumer who may not be
able to remember all the explana-
tions is likely to be confused over
this bean drive. It is to assist the
bean raiser to clear out three million
bags that the government didn't
take and which remain on the grow-
ers' hands. The confusion of the
consumer will result from the fact
that beans are no cheaper now than
when they appeared to be scarce,
and if there is a surplus of three
million bags he may wonder why
growers do not slash prices and clear
them out that way. It may be a
primitive way, but it is effective.

Austria seems to be having diffi-
culty in losing its late emperor. He
is no longer permitted to function
as ruler, but he sticks around and
is getting on the nerves of the peo-
ple. The trouble seems to be that
there is no retreat for poten-
tates out of a job.

It has been ruled by the superin-
tendent of the Motor Vehicle De-
partment of the State of California
that Federal vehicles must carry the
Federal symbol on the California
license plate though no fee is col-
lected. In the event that any Fed-
eral official or employee refuses to
follow this rule, the speculation is as
to what the State authorities will do
about it.

It is to be said that the entertain-
ment of the Naval Committee was
admirably managed. Befitting hospi-
tality was extended, and the ar-
rangements by which the members
were enabled to inspect the points
about the bay that are important
from the naval point of view, and
which they came especially to gain
light upon, were intelligently carried
out. It is justifiable to say that THE
TRIBUNE'S Naval Committee Sup-
plement, issued Saturday, supplied
the committee with compact data
that will prove of great assistance in
its labors.

The War Department keeps up its
lick. Now, since the troops are re-
turning as fast as can be arranged,
the department is rushing over un-
usual supplies in unusual quantities.
An account is to the effect that 2,540,000 packages of gum, 1,150,000
packages each of candy, popcorn,
fruit tablets, suet peanuts, salted
almonds and wafer rolls have been
rushed across.

San Jose has reason to deprecate
the disclosure that resulted from a
court action in which injury parents
sought redress for an injury to their
baby from a snowball. It takes a
lot of explaining. Snowballing isn't
a normal pastime in San Jose. In
fact, snow doesn't occur there at all.
This snowball that impinged on
the baby was brought from Mt.
Hamilton.

Those who saw new cause for
worry when they read about Italy
threatening to withdraw from the
peace conference if it was not forth-
with awarded Fiume overlooked
Colonel House. He is reported to
have come through with a plan to
"bridge the Fiume crisis." We don't
know what the plan is, but we all
know Colonel House.

Von Eckhardt has been granted
free passage through the United
States on his way home. He per-
formed so badly as he knew how
against the United States while Ger-
man minister to Mexico. That this
is not remembered to the extent of
denying such favor would be ap-
preciated by one who had an active
appreciator in his mental equipment.
But it is to be remembered that Von
Eckhardt is a Hun.

Many stories of the former kaiser
working up logs while a cordon of
soldiers guard are now being wired.
American lumbermen will be likely
to appreciate the story of his sawing
a thousand logs. Others may dis-
miss the subject with the observa-
tion that his season of sawing wood
came too late to be of real avail.

The peach growers of Yuba City
are to ask higher prices. Sure. The
war is over, which somehow is made
to justify the boosting of prices. The
war idea seems to work both ways.

The taxpaying public is not es-
pecially impressed with the result of
the tax saving commission. Too
much may have been expected. The
public is entitled to know about the
political power that resides in the
three dozen attorneys who would
have been cast adrift if the out-
come had been more drastic.

SPIRIT OF THE STATE PRESS.

A San Francisco man always gets
hot under the collar when you refer
to his beloved Golden Gate city as
just plain "Prison." And that same
San Francisco man will jocularly
refer to poor old Los Angeles as
"Bevo Junction" as if it were the
best joke on earth—San Diego
Union.

A new craze is sweeping over the
country—as silly, as pestilential, as
the dancing madness that seized the
world just before the war. Every-
body wants to reform everybody
else and to settle everything that
is wrong with anything. Our mails
are choked with passionate letters,
our waste baskets are overflowing
with "thoughtful" pamphlets—all
touting new panaceas—Santa Cruz
Sentinel.

Heaven help the I. W. W. or other
miscreants of Oakland if the report-
ed Vigilance Committee is built of
anything like the stern stuff that
flowered across the bay in San Fran-
cisco in the early '50s—Hanford
Sentinel.

The Santa Monica auto races were
a great disappointment. Only one
man was killed and the winner could
not get up a bet of only \$1 miles an
hour—Red Bluff News.

WILL AMERICA BE FIRST TO FLY ATLANTIC?

Army and Navy Are Racing
Against Other Nations and
Each Other For Glory of
Being First to Cross Ocean
by Airplane.

That the air services of the army
and navy are racing against each
other and against other nations for
the honor of being first to cross the
Atlantic by airplane is revealed in
an article by an unofficial and im-
partial investigator of the aircraft
industry, William Dinwiddie, who
writes an article in the April Cen-
tury called "Let's Drop in on Eng-
land," and urges that Congress spur
our aviators into accomplishing the
first transatlantic flight, before
Britain or some other rival can do it.

"While we Americans are good
sports," says Dinwiddie, "and quick
to offer enthusiastic acclaim to the
proven and daring and skill of the
other fellow, of whatever nationality
he may be, somehow most of us
would feel chagrined, even if we did
homage, if some other nation should
take the glory of the first all-air
transatlantic voyage.

"Let Congress ask the President,
as the commander-in-chief of the
army and navy, to see that either
branch, or both, secures the honor
of the first transatlantic flight for
the United States of America, and it
will become an accomplished fact
three months after the request.

"All authorities agree that we will
in all probability drop in on England
by air route before she visits us, for
the reason that the prevailing winds
across the Atlantic are from west to
east. There are certain modestly
equipped States naval officers, who
are building large flying boats,
which, they think, with a favoring
wind, can make the trip by way of
the Azores.

"There is one flying machine in
America actually in the air and
equipped with sufficient fuel for ex-
tremely long flights. This is a Cur-
tiss flying boat owned by the navy
and known as the N. C. 1. It has a
wing spread of 125 feet and has car-
ried fifty people into the air at one
time.

"Captain Roy M. Francis of Gen-
eral Kennerly's staff, an air engineer
and pilot of over nine years' experi-
ence, is now developing a flying ma-
chine that, he hopes, will keep the
air for sixteen hours at a speed of
from eighty to ninety miles an hour.
This machine is making actual test
flights, but not as yet for maximum
distances. Captain Francis earnestly
considers flying safer than driving
an automobile, and expects to see
the day when single-seater airplanes
will sell for \$750 and two-man ma-
chines will not exceed \$1500. In-
clusive of the instruments that make
flying safe.

Couldn't Blame It
It was a tumble-down hole of an
fun, but the two drummers had no
choice. They were stranded by a
snowdrift and must lodge there or
nowhere.

Pull of misgivings, they retired to
the only bedroom available and, after
bewailing their hard luck, got into
bed.
Presently a curious odor permeated
the atmosphere. Vigorous search led
one of them to the gas bracket.
"I say, Mac," he shouted, shaking
his slumbering friend, "wake up!
The gas is escaping!"
"Well, blowing the other, drowsily,
"aye blame it?"—Pittsburg Chroni-
cle-Telegraph.

HEALTH and HAPPINESS

What You May Do to Make
Your Arms More Truly
Lovely.

BY DR. LEONARD K. HIRSHBERG
A. B., M. A., M. D.
(Johns Hopkins University.)

You often hear an unhappy
woman exclaim: "I'm just waiting
and praying for the time to come
when all dresses will have long
sleeves. My arms are so slight! What
on earth is a woman to do?"
Women to whom beauty is a cult
and a science know that their arms
are the first aid to grace.

Of course, physical training is the
key to all beauty of form and face
as well as grace of motion. Beauty
without health is impossible.
The Greeks were the devotees of
the beautiful, and they were the
most perfect embodiment of health
and beauty the world has ever seen.
Their splendid physique was due to
their outdoor life and physical train-
ing, which began in childhood and
was systematically carried on
throughout life.

The Greek artists bequeathed to
all future generations a legacy of
noble values. They used the men
and women of the golden age of
Greece as the prototypes for the
most beautiful statues the world
has ever seen, proving that by per-
fect development of the body an
ideal type of beauty can be at-
tained. These statues also show
that the women of that day were
he physical comports of men.

To develop your arms you must
exercise care and thoughtfulness.
Right sleeves are an abomination
which tends to pinch, flatten and
eaten the arms. If your arms are
thin, they should be developed by
exercise and by massage with oils
or creams.

Pure creams, pure soaps and pure
powders will keep your arms white
and beautiful. Some arms lose
much loveliness by having skin of
coarse texture. The use of a bath
brush will tend to remove the
trouble by opening the closed pores.
After rubbing the arms with a flesh
brush a softening wash or unguent
may be applied with much benefit.
The following will soften and whiten
the skin of your arms to a marked
advantage:

Bran, 1 ounce; enough benzoin to
moisten it; the juice of one lemon.
Or this: Lemon juice, 1 ounce;
glycerine, 1 ounce, and rosewater, 2
ounces.

To develop thin arms hook the
fingers of one hand in those of the
other, turning one palm downward
and the other upward. Raise the
elbows shoulder high and move to
the left, dragging the other and re-
sisting arm as far as it can be
strained. Reverse this movement.
Shortly the muscles of the upper
arm will grow larger and firmer.

The thin girl should apply to her
arms one ounce of olive oil, patting
it softly into the skin; ten drops
of hyacinth essence is splendid, too.
The following when spread upon
the arms will whiten them and is a
cosmetic that will not rub off:
Glycerine, 1 ounce; orycholide of
bismuth, 1 ounce, and rosewater, 2
ounces.

TRUCK FIRMS CATCH HILL CLIMB FEVER

By JIM HOULIHAN.

Hill climbs, endurance runs, economy tests and speedway events are transpiring in the California automotive world with a greater frequency than was true of the industry ten years ago when such affairs were considered part of the mission necessary in asserting to the public at large that the automobile or the motor truck, as the case might have been, had come to stay.

During the last sixty days motorists' thoughts have reverted to the early days of the automobile business on more than one occasion. The daily papers have carried the stories of climbing California street on high, ascending it with a car tied on behind, of economy tests in which splendid gasoline averages were proven, of speedway tests at Ascot, and more recently of the annual running of the Santa Monica classic. Truck distributors apparently have watched with more than passive interest the volume of conversation created by the pleasure car stunts. Witness the fact that last week a heavy truck, with capacity load, mounted steep old Fillmore street hill in San Francisco. It was the first performance of record in which a motor truck took part. The laurels thus gained were not long singly possessed. Comes now our Oakland-made Pageol to demonstrate its power and hauling capabilities.

The truck used in the Fillmore ascent made yesterday is one of a fleet in the service of the Highway Transportation Motor Transport Co., a concern engaged in motor freight service between San Francisco and San Jose. It has already been run 30,000 miles. Of three and one-half ton capacity, it was loaded, for Monday's climb with 13,310 pounds dead weight. To this must be added the dead weight of the truck itself, 7330 pounds, making a total of 20,640 pounds that the Pageol motor pulled. The truck was driven by N. A. Kelly, an employee of the Highway Transportation Motor Transport Co., who runs it daily between the Golden Gate city and San Jose.

To the compound reduction gear principle of Pageol Truck construction is credited, by C. L. Butler, head of the Butler-Velch Co., the tremendous power shown in yesterday's climb. The gear ratio was 6.5-7 to 1.

Just seven minutes were necessary to make the run up Fillmore street. As if to conclusively prove the presence of ample reserve power of both motor and truck, Kelly, the driver, backed half way down the first hill, brought the truck to a dead stop and again started up the grade.

TELLS OF GIFTS TO WOMAN BARBER

"I am too much of a lady to allow myself to be crushed like a white slave as you suggest," wrote Mrs. Blanch Lee, a barber, to Arthur Hensley, according to his testimony in her trial for the alleged embezzlement of \$300 of his money. He says he gave her the money with which to start a rooming house and that she vanished with it. The trial is before a jury in Judge Quinn's department.

Hensley testified that he met her in her Clay street barber shop and suggested that she accompany him to the State Fair. She did not go, but he brought back a souvenir for her. Thereafter they became friends and went around together, according to his testimony.

"She always conducted herself like a perfect lady," the defendant's attorney asked Hensley.

"I'll say so," the witness replied.

"And can you say the same of yourself?"

"I can," the witness agreed, while the jury women tittered.

Hensley testified to having given her money at different times, considerable sums, besides a \$30 coat, a mandolin and many other presents. He admitted that he was to live at the rooming house they talked about, but denied that he gave her the \$300 as a gift, as she claims. Hensley is a musician, who declared that he can play on any instrument.

Woman Run Down Is in Critical State

Miss Mabel Grange, who was run down by an automobile at San Pablo avenue and Thirty-second street Sunday, is still in a critical condition at Fabiola Hospital today, but is slightly improved. It had not been determined whether she has a fractured skull. She is unconscious much of the time. Miss Grange was crossing the street with her sister, Mrs. J. L. Man, 7 Arroyo avenue, Piedmont, when an automobile knocked her down.

Editor Is Nominated for Mayor of Butte

BUTTE, Mont., March 25.—According to latest returns, W. F. Dunn, associate editor of the Butte Daily Bulletin, was nominated for mayor at the Democratic primary election here yesterday. Captain William Curtis, his opponent, claims the official canvass will overcome Dunn's present lead of fourteen votes. Wm. Stodden received the Republican majority nomination.

Japanese-U. S. Clash in Orient Is Settled

NEW YORK, March 25.—The Far Eastern bureau, representing American interests in the Orient today made public the following cable announcing it had been received from Shanghai: "Shanghai—The Japanese-American clash has been settled, but the soldiers of the two nations fight if they meet." The message was not dated, but the bureau stated it had been relayed through San Francisco March 13.

LECTURE ON ASTRONOMY.

The next lecture of the Adolfo Stahl course in astronomy, under the auspices of the Astronomical Society of the Pacific, will be given Saturday at 8 o'clock in Knights of Columbus Hall, 150 Golden Gate avenue, San Francisco. Dr. W. W. Campbell, director of the Lick Observatory, will be the speaker, his subject being "What Are the Spiral Nebulae?"

The Gasoline Problem of Supply and Demand

The second of a series of three statements

The war directed attention to the need of petroleum conservation. Speaking on this subject, Mark L. Requa, General Director, Oil Division, United States Fuel Administration, recently said:

"The disproportion between the supply of and demand for gasoline is enormous and constitutes a critical problem.

"Projected at the percentage of increase, 1904-1914, we should require in 1927 something like 700,000,000 barrels of petroleum. In 1918 our total production was only 350,000,000 barrels."

To meet this situation both the petroleum and automobile industries have for several years been making every effort. The problem has been approached from every angle:

- The oil producers are constantly prospecting for new fields. They have sunk many wells and are doing everything possible to increase petroleum production.
- The oil refiners, with the help of their chemical engineers, are ever devising new and improved processes of refining by which they squeeze every possible drop of gasoline out of each barrel of petroleum.
- The automotive engineers have aided much in gasoline conservation by their constant improvement of automobile engines and methods of carburization. Their efforts are to secure the operation of automobiles on grades of gasoline that permit the maximum production of this motor fuel from each barrel of crude oil and which, at the same time, will give the greatest power and mileage from each unit of gasoline consumed.

All these methods are succeeding to a marked degree, and yet gasoline consumption is increasing much faster than production.

Facing these bald facts last summer, it became evident to President Wilson and the United States Fuel Administration that there was virtually as great need for gasoline conservation as for food conservation.

In consequence the United States Fuel Administration requested Eastern states to discontinue entirely all non-essential use of passenger automobiles, and for a time this request was so extended that only automobiles in Government, emergency or war service were in use on Sunday. These limitations were not extended to the Western states, because at the time there was enough gasoline being produced in California for Pacific Coast needs and its distribution did not require the use of transcontinental transportation facilities needed for war.

It was part of this same campaign to conserve gasoline that led President Wilson to appoint a Government com-

mittee to determine and adopt standard specifications for gasoline and other petroleum products.

This committee consisted of the United States Fuel Administration and representatives of the War and Navy Departments, the United States Shipping Board, the Director General of Railroads, the Bureau of Mines and the Bureau of Standards.

The committee was assisted and advised by technical experts from each of these departments and bodies.

After extended discussions, exhaustive tests and experimentation, this Government committee adopted standard specifications for gasoline, not only for aviation purposes, but also for general motor use on land and sea.

These United States Government specifications were drawn up with a view to providing a grade of gasoline that would meet every practical requirement and yet allow maximum production. They deal with the problem on the basis of the best utilization of our petroleum resources, and the maintenance of reasonable prices to the consumer.

Drafted as they were by impartial Government experts, these United States Government gasoline specifications are today being generally considered as the most practical standard for gasoline. They insure an efficient and satisfactory gasoline and at the same time have due regard for the necessity of petroleum conservation.

The gasoline being furnished today is more powerful and gives greater mileage than the gasoline of ten years ago. Its use is made possible by the improvements in automobile engines and methods of carburization. To go back to the gasoline of ten years ago would be to accept a more highly volatile but less powerful gasoline giving less mileage. It would also result in decreasing the production and increasing the cost of gasoline.

All Red Crown gasoline now being supplied in the Pacific Coast states is refined to conform with the United States Government standard specifications. It has the full, uniform chain of boiling points necessary for full-powered, dependable gasoline: Low boiling points for easy starting, medium boiling point for quick, smooth acceleration, and high boiling points for power and mileage.

STANDARD OIL COMPANY

(California)

YEAR WAS ONE OF SUNSHINE

COUNTRY OVER

WASHINGTON, March 25.—The weather was more sunshine and less snow throughout most of the United States during the winter, but many of the people over here in the memory of the present generation. In only one section of the country—the plateau region—the winter severe and there low temperature records were established.

[illegible]

everywhere, and experts of the West
Bureau said today that there was bound
to be a considerable shortage of native
ice during the coming summer.

Bureau statistics show that
rather general notion that the pro
winter actually was the mildest of
known, instead of merely one of the
mildest, is erroneous. The winter
1875-76 was considerably warmer,
was the winter of 1877-78. The win
of 1881-82 was about like that just p
and in 1889-90 it was considera
warmer in the section east of the M
